EnCana Shallow Gas Infill Development Project Joint Review Panel
Mr. J.P. Mousseau Counsel
Alberta Energy and Utilities Board
640 - 5th Avenue SW
Calgary, AB T2P 3G4

Dear Sir/Madam:

EnCana Shallow Gas Infill Development Project (the “Project”)

During the course of EnCana Corporation’s (“EnCana”) consultation program for this Project, the issue of access to the Suffield National Wildlife Area (“NWA”) has been raised by the Siksika Nation. EnCana acknowledges that it does not control access to the NWA. However, in response to the concern raised, EnCana is writing to the Joint Review Panel to advise that it views the exercise of Treaty and Aboriginal rights as not being incompatible with EnCana’s activities in the NWA.

If you have any questions or concerns regarding the above information, please do not hesitate to contact the undersigned.

Yours truly,

Kenneth B. Pischke
Vice President, Medicine Hat BU
