Subject: DGR Project - NWMO Responses to Comments on Draft Technical Support Documents – Aquatic Environment, Hydrology and Surface Water Quality and Radioactivity and Terrestrial Environment

Dear Mr. King,

CNSC staff has received the NWMO’s response[1] to Federal Review Team (FRT) comments on four draft Technical Support Documents (TSD). The responses are considered generally acceptable at this time. Please note that once the EIS and TSDs are submitted to the Joint Review Panel, a detailed review will be conducted and additional questions and comments in these subject areas may be expected.

If you have any questions, please contact me at 613-943-8103.

Sincerely,

Project Officer  
Wastes and Decommissioning Division
