

## ***DECISION***

The authorities, Canadian Nuclear Safety Commission, Natural Resources Canada, Transport Canada and Fisheries and Oceans Canada, have taken the following course of action on September 12, 2012 relating to the Comprehensive Study Report for the Midwest Mining and Milling Project in Northern Saskatchewan. The authorities may exercise any power or perform any duty or function with respect to the project because, after taking into consideration the comprehensive study report and taking into account the implementation of appropriate mitigation measures, the authorities are of the opinion that the project is not likely to cause significant adverse environmental effects.

A follow-up program to verify the accuracy of the environmental assessment and/or determine the effectiveness of any measures taken to mitigate the adverse environmental effects is required for this project. For further information or to obtain a copy of the follow-up program, please contact the authorities who were responsible to conduct this environmental assessment.
