Government Review Team

---

## Item:

### Introductions

Generation PGM introduced their representatives and their Consultants.

### Presentation by Generation PGM – Project Sequencing and Site Arrangement

A presentation was made by Craig Hall (Knight Piesold) and Jason Dietrich regarding project sequencing and the general site arrangement.

Questions from the GRT were focused on overprinting of lakes (waters frequented by fish), Camp 19 Road construction, damming and diversion, and the location of the site water balance in the EIS Addendum.

### Presentation by Generation PGM – Site Water Balance

A presentation was made by Craig Hall (Knight Piesold) regarding the site water balance. The presentation talked about the Water Management Pond (WMP); storm water management pond; water management in the process solids management facility (PSMF), mine rock storage area (MRSA), and open pits; and the water management strategy through construction, operations and closure.
