Debra Sikora
Chair
Joint Review Panel
Marathon Palladium Project

Dear Mrs. Sikora:

Clause 3.22 in the Amended Joint Review Panel Agreement and Terms of Reference states 'the Panel will submit its report at the earliest possible date within the overall time limit established'. Given the delays that the global COVID-19 pandemic has had on the public process for this project, through this correspondence, the Town of Marathon is formally requesting that once the public hearing process is completed (approximately mid-April), that the Panel recommendations be issued no later than 60 days after the completion date. The Town believes that this timeline is reasonable to draft and issue the necessary recommendations given the compendium of data and information that has already been submitted to date through the project review process.

In closing, having tightly adhered to timelines for this project will improve the overall public process outcomes by providing more attention to detail. I would be pleased to discuss our request further and can be reached at <contact information removed>

Yours Truly,

THE TOWN OF MARATHON
