Mr. Jean-Sébastien Lavallée  
Chief Executive Officer  
Critical Elements Lithium Corporation  
1080, Beaver Hall Hill  
Suite 2101  
Montreal, Quebec, H2Z 1S8

**SUBJECT: Rose Lithium-Tantalum Mining Project – Answers to the June 27, 2019 Information Request**

Dear Mr. Lavallée:

On 7 February 2020, the Joint Assessment Committee (the Committee) received additional responses to its June 27, 2019 information request, regarding the environmental assessment of the aforementioned project. Answers are presented in the following document:

*WSP, 2020. Project Pink Lithium-Tantalum. Responses to the inconsistencies indicated in the first information request from IAAC. Report produced for Corporation Lithium Éléments Critiques. 25 pages and Appendix CEEA-46.*

After reviewing the document, the Committee, in collaboration with the expert departments involved in the environmental assessment, determined that the additional information provided allows for further analysis. The Committee will advise you in the coming weeks if a new information request is required to complete the information needed for the Committee's analysis.

If you require additional information, please contact Véronique Lalande by phone at 418-455-4116 or by email at the following address: [veronique.lalande@canada.ca](mailto:veronique.lalande@canada.ca)

Yours sincerely,
