**Subject:** Say NO to lng

To whom it may concern;

Say no, say <expletive removed> no to any lng plant on Canadian soil anywhere at anytime, to do otherwise is absurdly wrong. Its kind of like putting all our oil refineries in the good old U S of A. How is that working out for us now, they decide what we pay for gas and that is also some kind of wrong. Give your heads a shake please and stop accepting bribes, the rest of us are suffering for it.

Thanks.

Jeff Houlton
