Subject: Pipelines

Yes you guys need to get these things rolling now so us current hard working Canadians can benefit now not once Canada is full of immigrants!

We need to prepare for our future now because once we hit retirement, there won't be any money for those that have contributed along the way. We shouldn't have to live on social assistance but at the rate you provincial and federal politicians move we will be dead.

If we support your BC pipeline then you had better support our Energy East Line!!
