

TABLE OF CONTENTS

1	Introduction and Project Overview	1-1
1.1	Purpose of the EIS/Application	1-1
1.2	Proponent Information.....	1-3
1.2.1	Pacific NorthWest LNG Limited Partnership	1-3
1.2.2	Environmental Assessment Consultant	1-4
1.3	Purpose of the Project.....	1-5
1.4	Project Location	1-5
1.5	Participants in the Environmental Assessment.....	1-6
1.6	Regulatory Framework and the Role of Government	1-7
1.6.1	Federal Framework	1-7
1.6.2	Provincial Framework.....	1-8
1.6.3	Local and Regional Framework.....	1-9
1.6.4	Treaties and Self-Government	1-10
1.6.5	Key Objectives, Standards and Guidelines Used for the Assessment	1-10
1.7	References.....	1-11
1.8	Figures	1-12
2	Project Description	2-1
2.1	Environmental Design	2-1
2.1.1	Project Design Philosophies.....	2-1
2.1.2	Project Design Standards and Policies	2-2
2.1.3	Project Design Mitigation and Changes	2-4
2.2	Project Components.....	2-7
2.2.1	LNG Trains	2-8
2.2.2	LNG Storage and Loading.....	2-10
2.2.3	Utilities and Offsite	2-12
2.2.4	Non-Manufacturing Facilities	2-15
2.2.5	Temporary Construction Facilities.....	2-16
2.3	Project Activities	2-16
2.3.1	Construction	2-17
2.3.2	Operations	2-21
2.3.3	Decommissioning	2-26
2.4	Alternative Means of Carrying out the Project	2-28
2.4.1	Alternative LNG Production Processes	2-28
2.4.2	Alternative Main Refrigerant Compressor Drivers.....	2-31
2.4.3	Alternative Source of Electrical Power	2-33
2.4.4	Alternative Land-based Access to Lelu Island	2-35
2.4.5	Alternative Site Location.....	2-36

2.4.6	Alternative Placement of Marine Infrastructure (Trestle, Berths and MOF)	2-38
2.4.7	Alternative to Disposal at Sea for Marine Sediments.....	2-42
2.4.8	Alternative Locations for the Disposal at Sea of Marine Sediments	2-42
2.4.9	Alternative Project Site Layout	2-46
2.4.10	Alternative Construction Camp Locations	2-48
2.4.11	Analysis of Alternatives and Summary of Findings	2-48
2.5	Project Land Use.....	2-53
2.6	Federal Scope of the Project	2-53
2.7	Provincial Scope of the Project	2-53
2.8	Applicable Permits and Regulatory Approvals.....	2-53
2.9	References.....	2-54
2.10	Figures	2-54
3	Summary of Engagement	3-1
3.1	Provincial and Federal Involvement and Issues Tracking	3-1
3.2	First Nations Information Distribution.....	3-3
3.3	Public Consultation and Information Distribution	3-14
3.3.1	Issues Identified Prior to EIS/Application Submission.....	3-17
3.3.2	Consultation Activities Completed Prior to EIS/Application Submission	3-19
3.3.3	Consultation Planned During EIS/Application Review	3-20
4	Scope of Assessment and Methods	4-1
4.1	Environmental Assessment Methods.....	4-1
4.1.1	Valued Components.....	4-2
4.1.2	Assessment Boundaries.....	4-8
4.1.3	Baseline Conditions.....	4-11
4.1.4	Assessment of Project-Specific Effects.....	4-12
4.1.5	Summary of Residual Effects	4-19
4.2	Assessment of Cumulative Effects	4-19
4.2.1	Project Inclusion List	4-20
4.2.2	Cumulative Effects Assessment.....	4-21
4.3	Accidents or Malfunctions	4-22
4.4	Effects of the Environment on the Project.....	4-23
4.5	Environmental Management Plans	4-23
4.6	Aboriginal Rights and Related Interests.....	4-23
4.7	Benefits to Canadians	4-23
4.8	Follow-up Program.....	4-24
4.9	References.....	4-24
4.10	Figures	4-24

5	Existing Environment	5-1
5.1	Atmospheric Environment and Climate.....	5-1
5.1.1	Climate	5-1
5.1.2	Tidal Fluctuations and Storm Surges	5-2
5.1.3	Air Quality	5-2
5.1.4	Acoustic Environment.....	5-3
5.1.5	Ambient Light.....	5-3
5.2	Geophysical Environment	5-3
5.2.1	Geology	5-3
5.2.2	Bathymetry	5-4
5.3	Surficial Geology (Terrain and Soil).....	5-4
5.4	Vegetation and Wetlands.....	5-5
5.5	Terrestrial Wildlife and Marine Birds	5-5
5.5.1	Mammals.....	5-5
5.5.2	Avifauna.....	5-6
5.5.3	Reptiles and Amphibians.....	5-7
5.6	Freshwater Aquatic Resources.....	5-7
5.7	Marine Resources	5-8
5.8	Human Environment	5-9
5.8.1	First Nations	5-9
5.8.2	Physical and Cultural Heritage	5-10
5.8.3	Health and Socio-economic Conditions	5-12
5.8.4	Infrastructure and Services	5-13
5.9	References.....	5-16
6	Air Quality	6-1
6.1	Introduction	6-1
6.2	Scope of Assessment	6-1
6.2.1	Regulatory and Policy Setting	6-1
6.2.2	Influence of Consultation on the Assessment.....	6-1
6.2.3	Selection of Potential Effects.....	6-2
6.2.4	Selection of Measurable Parameters	6-2
6.2.5	Boundaries	6-6
6.2.6	Residual Effects Description Criteria.....	6-6
6.2.7	Significance Thresholds for Residual Effects.....	6-8
6.3	Baseline Conditions	6-8
6.3.1	Background Methods and Data Sources	6-8
6.3.2	Overview of Background Conditions	6-9
6.4	Project Interactions with Air Quality	6-9
6.4.1	Justification of Interaction Rankings.....	6-11

6.5	Effects Assessment.....	6-11
6.5.1	Analytical Methods	6-11
6.5.2	Increase in Criteria Air Contaminant Concentrations	6-13
6.5.3	Summary of Residual Effects	6-20
6.6	Cumulative Effects	6-23
6.6.1	Context for Cumulative Effects.....	6-23
6.6.2	Cumulative Effects Assessment.....	6-23
6.7	Follow-up and Monitoring.....	6-28
6.8	Conclusion	6-28
6.9	References.....	6-29
6.10	Figures 6-29	
7	Greenhouse Gas Management.....	7-1
7.1	Introduction	7-1
7.2	Scope of Assessment	7-1
7.2.1	Regulatory and Policy Setting	7-1
7.2.2	Influence of Consultation on the Assessment.....	7-7
7.2.3	Selection of Potential Effects.....	7-7
7.2.4	Selection of Measurable Parameters	7-8
7.2.5	Boundaries	7-9
7.3	Baseline Conditions	7-9
7.3.1	Provincial and National GHG Emissions Inventory.....	7-9
7.3.2	Industry Profile.....	7-10
7.4	Project Activities Resulting in Greenhouse Gas Emissions.....	7-11
7.5	Effects Assessment.....	7-12
7.5.1	Construction	7-12
7.5.2	Operation.....	7-13
7.6	Effects on GHG Reduction Targets	7-14
7.7	GHG Management Options	7-15
7.7.1	GHG Management Plan	7-15
7.7.2	Land Clearing and Biomass Burning.....	7-16
7.7.3	Designing the Best-in-Class LNG Facility	7-16
7.7.4	Reduction in Methane Emissions.....	7-17
7.8	Follow-up and Monitoring.....	7-17
7.8.1	Reporting Requirements	7-17
7.9	Conclusion	7-17
7.10	References.....	7-18
8	Acoustic Environment.....	8-1
8.1	Introduction	8-1
8.2	Scope of Assessment	8-1

8.2.1	Regulatory and Policy Setting	8-1
8.2.2	Influence of Consultation on the Assessment	8-3
8.2.3	Selection of Potential Effects	8-3
8.2.4	Selection of Measurable Parameters	8-3
8.2.5	Boundaries	8-4
8.2.6	Residual Effects Description Criteria	8-5
8.2.7	Significance Thresholds for Residual Effects	8-7
8.3	Baseline Conditions	8-7
8.3.1	Baseline Methods and Data Sources	8-7
8.3.2	Overview of Baseline Conditions	8-8
8.4	Project Interactions with Acoustic Environment	8-9
8.4.1	Justification of Interaction Rankings	8-11
8.5	Effects Assessment	8-11
8.5.1	Analytical Methods	8-11
8.5.2	Increase in Ambient Sound Levels	8-13
8.5.3	Summary of Residual Effects	8-28
8.6	Cumulative Effects	8-31
8.6.1	Context for Cumulative Effects	8-31
8.6.2	Cumulative Effects Assessment	8-31
8.7	Follow-up and Monitoring	8-34
8.8	Conclusion	8-34
8.9	References	8-34
8.10	Figures	8-35
9	Ambient Light	9-1
9.1	Introduction	9-1
9.2	Scope of Assessment	9-1
9.2.1	Regulatory and Policy Setting	9-1
9.2.2	Influence of Consultation on the Assessment	9-3
9.2.3	Selection of Potential Effects	9-3
9.2.4	Selection of Measurable Parameters	9-4
9.2.5	Boundaries	9-4
9.2.6	Residual Effects Description Criteria	9-5
9.2.7	Significance Thresholds for Residual Effects	9-6
9.3	Baseline Conditions	9-6
9.3.1	Baseline Methods and Data Sources	9-6
9.3.2	Overview of Baseline Conditions	9-6
9.4	Project Interactions with Ambient Light	9-7
9.4.1	Justification of Interaction Rankings	9-8
9.5	Effects Assessment	9-9

	9.5.1 Analytical Methods	9-9
	9.5.2 Change of Ambient Light.....	9-9
	9.5.3 Summary of Residual Effects	9-13
9.6	Cumulative Effects	9-16
	9.6.1 Context for Cumulative Effects.....	9-16
	9.6.2 Cumulative Effects Assessment.....	9-16
9.7	Follow-up and Monitoring.....	9-18
9.8	Conclusion	9-18
9.9	References.....	9-19
9.10	Figures 9-19	
10	Vegetation and Wetland Resources.....	10-1
10.1	Introduction	10-1
10.2	Scope of Assessment	10-1
	10.2.1 Regulatory and Policy Setting	10-1
	10.2.2 Influence of Consultation on the Assessment.....	10-3
	10.2.3 Selection of Potential Effects.....	10-3
	10.2.4 Selection of Measurable Parameters	10-4
	10.2.5 Boundaries	10-5
	10.2.6 Residual Effects Description Criteria.....	10-6
	10.2.7 Significance Thresholds for Residual Effects.....	10-8
10.3	Baseline Conditions	10-9
	10.3.1 Baseline Methods and Data Sources	10-9
	10.3.2 Overview of Baseline Conditions.....	10-10
10.4	Project Interactions with Vegetation and Wetland Resources.....	10-15
	10.4.1 Justification of Interaction Rankings.....	10-17
10.5	Effects Assessment.....	10-19
	10.5.1 Analytical Methods	10-19
	10.5.2 Change in Abundance of Plant Species of Interest.....	10-19
	10.5.3 Change in Abundance or Condition of Ecological Communities.....	10-21
	10.5.4 Change in Wetland Functions	10-27
	10.5.5 Summary of Residual Effects	10-30
10.6	Cumulative Effects	10-34
	10.6.1 Context for Cumulative Effects.....	10-34
	10.6.2 Cumulative Effects Assessment.....	10-34
10.7	Follow-up and Monitoring.....	10-39
10.8	Conclusion	10-39
10.9	References.....	10-39
