Subject: A message about the Roberts Bank Terminal 2 expansion from a concerned citizen

REAL TERMINAL 2 HEARINGS
Open, Public Consultations about the
Roberts Bank Terminal 2 Expansion

**Important public comment on proposed Roberts Bank
Terminal 2 expansion project**

Dear T2 Panel,

A member of the public has sent you the following message about the proposed Roberts Bank Terminal 2 expansion project.

A copy has been sent to the Canadian Environmental Assessment Agency, the Prime Minister and over 50 local, regional and federal elected officials. All comments will be posted online at [Real Terminal 2 Hearings](#)

**MY COMMENT ON THE PROPOSED ROBERTS
BANK TERMINAL 2 EXPANSION PROJECT**

This proposal would be catastrophic to the Pacific Flyway and have huge impacts on other wildlife including salmon and our precious limited farmland that we need to feed our growing population in a time of climate crisis. If we have any conscience, we must prevent this proposal.

This is an important issue for me. I look forward to your response to my concerns.

Regards,

Kathleen Whipp

Delta, British Columbia

This campaign to generate public comments to CEAA and the Federal, Provincial and Municipal governments on the proposed Roberts Bank Terminal 2 expansion is organized by [Against Port Expansion](#)

A.P.E

APE (Against Port Expansion in the Fraser Estuary BC) is a group of concerned citizens who recognize that plans for container terminal expansion on Roberts Bank (T2) will see the degradation of the quality of life for thousands of Lower Mainland residents; the industrialization of prime agricultural land; and the loss of globally-significant habitat for salmon, migrating birds and orca whales.

REAL HEARINGS

This campaign was delivered using the [RealHearings.org](#) commenting platform. RealHearings.org creates accessible, easy to use commenting platforms for organizations working on environment, climate and other progressive campaigns. RealHearings.org is dedicated to openness and transparency in government decision making and facilitates public input to decision making processes.
