Victoria, BC, V8W 1L8

Dear Mr Moore

WITHDRAWAL OF PROPOSED GRASSY POINT LNG PROJECT FROM THE ENVIRONMENTAL ASSESSMENT PROCESS

With regards to the British Columbia (BC) Environmental Assessment Office (EAO) File 30050-20/GPOI-05-06, Woodside Energy Holdings requests to withdraw the proposed Grassy Point LNG Project from the existing environmental assessment process. Furthermore, as Federal environmental assessment was substituted for assessment by the EAO, we also request through the EAO that the proposed Grassy Point LNG Project also be withdrawn from any related assessments, applications and processes with the Canadian Environmental Assessment Agency.

I would like to take this opportunity to thank you and your team for your contribution and support to the environmental assessment process. Should you have any further queries please contact Chris Coffey, Senior Environment Adviser or myself (darren.flynn@woodside.com.au).

Yours sincerely
