Subject: Re: Hearing Submission for the Grassy Mountain Coal Project
Response requested: No
Sensitivity: Normal

Ms Utting

I tried several times to send a note to the Panel saying I had elected not to file a submission nor to make a presentation. Unfortunately, as happened previously when I tried to file SOC, the e mail bounced. Repeatedly. Even though I was using the e mail in your notices and there were no spelling errors. I trust this one will be received.

Good afternoon Mr. Garbutt,

On August 10, 2020, the Joint Review Panel for the Grassy Mountain Coal Project communicated their decision to you regarding your eligibility to fully participate at the public hearing for the Project ([CIAR #450](#)).

The deadline for hearing submissions was yesterday, September 21, 2020. The panel secretariat is not currently in receipt of a submission from you. We did note that some of the submissions were not initially received due to their large file size.

Could you please confirm whether you provided a submission to this email address yesterday, and/or clarify your further participation in the Grassy Mountain Coal Project hearing?

Sincerely,
Tracy
