Canadian Nuclear Laboratories' Nuclear Power Demonstration Closure Project

PFP
Participant Funding
Program

January 25, 2017

On May 25, 2016, the Canadian Nuclear Safety Commission (CNSC) announced it was offering up to \$100,000 under its Participant Funding Program (PFP) to assist members of the public, Indigenous groups, and other stakeholders participate in the environmental assessment, licence application review and Commission hearing processes for the Canadian Nuclear Laboratories' (CNL) Nuclear Power Demonstration Closure Project (NPDCP). The deadline for submitting participant funding applications to the CNSC was September 2, 2016.

Background

Participant funding was made available by the CNSC to:

- provide new, distinctive and valuable information to the CNSC through informed and topic-specific interventions
- assist interested parties to prepare for – and participate in – the environmental assessment, licence application review and Commission hearing processes for the matter at hand

A funding review committee (FRC), independent of the CNSC, was established to review the funding applications received by the CNSC's PFP administrator, and to make recommendations to the CNSC on the allocation of up to \$100,000 for eligible applicants.

The FRC members were:

- Mr. Guy Riverin, environmental assessment expert and retired federal public servant
- Mr. Paul Scott, retired Regional Director of the Canadian Environmental Assessment Agency's Vancouver office
- Mr. Bruce Young, retired Canadian Environmental Assessment Agency Director

The FRC reviewed the seven PFP applications received by the CNSC, requesting a total of \$241,740.64.

Eligibility and funding criteria
