Re: Hydrogen Ready Power Plant Project

Dear Ms. Puvananathan

Eastern Power Inc. acknowledges receipt of your letter dated July 25, 2022 which included the Summary of Issues for the Hydrogen Ready Power Plant Project. Your letter requests that Eastern Power submit a response to the Summary of Issues and a Detailed Project Description to the Impact Assessment Agency by August 24, 2022.

Following our review of the Summary of Issues and discussion with the Agency, Eastern Power requests an extension for the submission of the Detailed Project Description. We request that the Agency suspend the time limit until Eastern Power submits the Detailed Project Description, including the response to the Summary of Issues.

We are committed to advancing the Project in a timely manner and do not expect a significant delay in the submission of the Detailed Project Description to the Agency.

Should you have any questions regarding this request, please do not hesitate to contact us.

Regards,
