

10.0 Costs

Estimated preliminary costs for site closure, rehabilitation and monitoring are provided in Tables 5 and 6. Table 5 contains the costs for closing, rehabilitating and monitoring the MRSA, PSMF and satellite pits and has been prepared by Knight Piesold and comes to \$10,679,800. Table 6 contains costs for closing, rehabilitating and monitoring the remainder of the site and has been prepared by TGCL and comes to \$15,591,576 for a total of \$26,271,376. The estimates are based on 2012 costs and the conceptual mine site design discussed herein.
