

VOLUME 1: TABLE OF CONTENTS

EXECUTIVE SUMMARY

AUTHORSHIP

ABBREVIATIONS AND ACRONYMS

DEFINITIONS

TABLE OF CONCORDANCE

1	Introduction.....	1-1
1.1	Guiding Principles	1-1
1.1.1	Comprehensive Environmental Assessment.....	1-2
1.1.2	Public Participation	1-2
1.1.3	Aboriginal Consultation.....	1-2
1.1.4	Sustainability.....	1-2
1.2	Purpose of this Environmental Impact Statement.....	1-2
1.3	Presentation and Organization of the Environmental Impact Statement.....	1-4
1.3.1	Volume 1: Introduction, Project Planning, and Description	1-4
1.3.2	Volume 2: Assessment Methodology and Environmental Effects Assessment	1-5
1.3.3	Volume 3: Economic Effects Assessment.....	1-5
1.3.4	Volume 4: Social, Heritage Resources, and Health Effects Assessments.....	1-5
1.3.5	Volume 5: Aboriginal Interests and Information, Federal Information, and Environmental Management Plans.....	1-5
	References	1-6
	Literature Cited	1-6
2	Proponent Description.....	2-1
2.1	Contact Information.....	2-2
3	Project Overview.....	3-1
3.1	Project Governance Process	3-1
3.1.1	Multi staged Decision Making Process.....	3-1
3.1.2	Governance Structure and Implementation of Corporate Policies	3-2
3.1.3	Corporate and Management Structure: Insurance and Liability	3-2
3.1.4	Site C Clean Energy Project Charter	3-3
3.1.5	Legal Entity	3-5
3.2	Scheduling	3-5
	References	3-6
	Literature Cited	3-6
4	Project Description.....	4-1
4.1	Project Location	4-1
4.1.1	Natural Elements	4-1
4.1.2	Human Elements	4-2
4.1.2.1	Aboriginal Lands	4-3
4.1.2.2	Nearby Communities.....	4-4
4.1.3	Land Ownership.....	4-4

4.1.4	Environmentally Sensitive Areas and Parks.....	4-5
4.1.5	Current Land Use and Management Designations	4-6
4.2	Project Evolution	4-6
4.3	Project Components	4-8
4.3.1	Dam, Generating Station, and Spillways	4-8
4.3.1.1	Earthfill Dam.....	4-9
4.3.1.1.1	General Description.....	4-9
4.3.1.1.2	Materials Used to Construct the Earthfill Dam	4-11
4.3.1.2	Approach Channel	4-15
4.3.1.3	RCC Buttress	4-15
4.3.1.4	Generating Station	4-16
4.3.1.5	Spillways	4-17
4.3.2	Reservoir	4-18
4.3.3	Substation and Transmission Line to Peace Canyon.....	4-19
4.3.3.1	General Description	4-19
4.3.3.2	Transmission Line Alternatives Considered.....	4-20
4.3.3.2.1	Alternative 1 – North Transmission Corridor	4-21
4.3.3.2.2	Alternative 2 – Submarine Transmission Cable Connection between Site C and Peace Canyon	4-21
4.3.4	Highway 29 Realignments.....	4-22
4.3.4.1	General Description	4-22
4.3.4.2	Alternative Highway Alignments Considered	4-23
4.3.4.2.1	Lynx Creek Alternatives	4-23
4.3.4.2.2	Halfway River	4-24
4.3.4.2.3	Cache Creek.....	4-24
4.3.5	Quarried and Excavated Construction Materials.....	4-25
4.3.5.1	General Description	4-25
4.3.5.2	Off-Site Sources.....	4-25
4.3.5.2.1	85th Avenue Industrial Lands.....	4-30
4.3.5.2.2	Wuthrich Quarry	4-30
4.3.5.2.3	West Pine Quarry	4-30
4.3.5.2.4	Portage Mountain	4-31
4.3.5.2.5	Del Rio Pit.....	4-31
4.3.5.2.6	Inundated Areas	4-31
4.3.5.2.7	Commercial Pits	4-31
4.3.5.2.8	Area E.....	4-31
4.3.5.3	On-Site Sources	4-32
4.3.5.3.1	Highway 29 and Hudson’s Hope Shoreline Protection	4-32
4.3.5.3.2	Dam, Generating Station, and Spillways.....	4-32
4.3.5.4	Alternative Off-Site Material Sources Considered	4-32
4.3.5.4.1	Dam, Generating Station, and Spillways.....	4-32
4.3.5.4.2	Temporary Riprap	4-33
4.3.5.4.3	Permanent Riprap	4-33
4.3.5.4.4	Highway 29 and Hudson’s Hope Shoreline Protection	4-34
4.3.6	Worker Accommodation	4-34
4.3.6.1	In-community Accommodation.....	4-35
4.3.6.2	Temporary Accommodation – Dam Site	4-35
4.3.6.3	Temporary Accommodation – Regional Locations	4-36
4.3.6.4	RV Parks	4-36
4.3.7	Road And Rail Access.....	4-36
4.3.7.1	North Bank Access to Dam Site Area	4-37
4.3.7.2	South Bank Access to Dam Site Area	4-37
4.3.7.2.1	General Description.....	4-37
4.3.7.2.2	Alternate Access Routes Considered	4-38

4.3.7.3	Access Roads Within Dam Site Area.....	4-39
4.3.7.4	Transmission Line Corridor Access	4-39
4.3.7.5	Reservoir Preparation Access.....	4-39
4.4	Construction	4-40
4.4.1	Site Preparation	4-41
4.4.1.1	Clearing	4-41
4.4.1.2	Grubbing.....	4-41
4.4.1.3	Stripping	4-41
4.4.1.4	Contaminated Sites	4-41
4.4.1.5	Infrastructure	4-41
4.4.1.6	Fencing.....	4-41
4.4.1.7	Helipad	4-41
4.4.2	Typical Road and Highway Construction Activities	4-42
4.4.2.1	General Activities	4-42
4.4.2.2	Gravel Production	4-42
4.4.2.3	Road and Highway Grading	4-42
4.4.2.4	Drainage.....	4-42
4.4.2.5	Bridge Construction.....	4-42
4.4.2.6	Finishing.....	4-42
4.4.2.7	Traffic Management	4-43
4.4.2.8	Reclamation and Decommissioning.....	4-43
4.4.3	Dam, Generating Station, and Spillways.....	4-43
4.4.3.1	Preliminary Works	4-44
4.4.3.1.1	Temporary Facilities	4-44
4.4.3.1.2	Utilities	4-44
4.4.3.1.3	Dam Site Temporary Worker Accommodation.....	4-45
4.4.3.1.4	Waste Treatment and Management Facilities.....	4-45
4.4.3.1.5	Installation and Operation of Temporary Facilities.....	4-45
4.4.3.1.6	Explosive Storage	4-45
4.4.3.1.7	Fuel Storage and Refuelling Sites.....	4-45
4.4.3.1.8	Truck Washing Stations	4-46
4.4.3.1.9	Aggregate and Filter Processing Plants.....	4-46
4.4.3.1.10	Concrete Batch Plants.....	4-46
4.4.3.1.11	Relocation of Surplus Excavated Materials.....	4-46
4.4.3.2	Stage 1 – River Channelization	4-47
4.4.3.2.1	North Bank Stage 1 Cofferdams	4-48
4.4.3.2.2	South Bank Stage 1 Cofferdams.....	4-48
4.4.3.2.3	Temporary Construction Access Bridge.....	4-49
4.4.3.2.4	Diversion Works	4-49
4.4.3.3	Stage 2 – River Diversion	4-50
4.4.3.3.1	Earthfill Dam and North Bank Excavation	4-51
4.4.3.3.2	South Bank Structures	4-52
4.4.3.4	Reservoir Filling and Commissioning.....	4-53
4.4.3.5	Demobilization and Reclamation Activities	4-53
4.4.4	Reservoir	4-54
4.4.4.1	Clearing and Debris Management	4-54
4.4.4.2	Boat Traffic Management.....	4-54
4.4.4.3	Hudson’s Hope Shoreline Protection	4-54
4.4.5	Substation and Transmission Line to Peace Canyon.....	4-55
4.4.5.1	Transmission Line	4-55
4.4.5.1.1	Right-of-Way Clearing	4-55
4.4.5.1.2	Tower Foundations and Anchor Installation.....	4-55
4.4.5.1.3	Concrete and Grout Production and Placement	4-56
4.4.5.1.4	Assembly and Erection of Transmission Structures	4-56
4.4.5.1.5	Installation of Counterpoise.....	4-56

4.4.5.1.6	Conductor Stringing.....	4-56
4.4.5.1.7	Upgrades to Peace Canyon Substation	4-57
4.4.5.1.8	Decommissioning of the 138 kV Transmission Lines	4-57
4.4.5.1.9	Reclamation.....	4-58
4.4.5.2	Site C Substation	4-58
4.4.5.2.1	Site Preparation and Grading.....	4-58
4.4.5.2.2	Ground Grid and Fencing.....	4-58
4.4.5.2.3	Concrete Placement.....	4-58
4.4.5.2.4	Installation and Testing of Electrical Equipment	4-58
4.4.6	Highway 29 Realignment.....	4-59
4.4.7	Quarried and Excavated Construction Materials	4-60
4.4.7.1	Riprap and Bedding Production	4-60
4.4.7.2	Excavating.....	4-60
4.4.7.3	Moisture Conditioning	4-60
4.4.7.4	Crushing and Screening.....	4-61
4.4.7.5	Washing	4-61
4.4.7.6	Stockpiling.....	4-61
4.4.7.7	Surplus or Unsuitable Materials	4-61
4.4.7.8	Reclamation	4-61
4.4.8	Access Roads and Rail	4-62
4.4.8.1	Construction Phase Activities.....	4-62
4.4.8.2	Transportation of Extraordinary Loads.....	4-63
4.5	Operations.....	4-63
4.5.1	Dam, Generating Station, and Spillways	4-63
4.5.1.1	Dam Safety.....	4-64
4.5.1.2	Generation Operations.....	4-65
4.5.1.3	Spillway Operation	4-65
4.5.1.4	Maintenance.....	4-66
4.5.2	Reservoir	4-67
4.5.2.1	Reservoir Operation	4-67
4.5.2.2	Debris Management.....	4-67
4.5.2.3	Maintenance of Hudson’s Hope Shoreline Protection	4-67
4.5.3	Substation and Transmission Line to Peace Canyon.....	4-67
4.5.4	Highway 29	4-68
4.5.5	Quarries and Excavated Construction Materials Sources.....	4-68
4.5.6	Access Roads.....	4-68
4.5.7	Sustaining Capital Expenditure	4-68
4.6	Project Decommissioning	4-69
	References	4-70
	Literature Cited	4-70
	Internet Sites.....	4-70
5	Need for, Purpose of, and Alternatives to the Project.....	5-1
5.1	Introduction	5-1
5.2	Need for the Project	5-3
5.2.1	Load-Resource Balance Assumptions	5-4
5.2.1.1	BC Hydro’s 2012 Load Forecast.....	5-4
5.2.1.2	Existing and Committed Supply-Side Resources	5-9
5.2.2	Load-Resource Balances	5-11
5.2.2.1	Load-Resource Balances Without Demand-Side Management Target and Revelstoke Unit 6	5-11

5.2.2.2	Load-Resource Balances with Demand Side-Management Target and Revelstoke Unit 6	5-12
5.2.3	Load/Resource Balance Uncertainty	5-15
5.2.4	Conclusion	5-22
5.3	Purpose of the Project	5-22
5.3.1	Meeting Identified Need.....	5-22
5.3.2	Aligning with the <i>Clean Energy Act</i> and B.C. Government Policy.....	5-24
5.4	Identification of Potential Alternatives to the Project and Screened Resources.....	5-25
5.4.1	Alternatives Identification.....	5-26
5.4.1.1	2010 Resource Options Report	5-26
5.4.1.2	Wind Cost Update	5-29
5.4.2	Screened Resources	5-30
5.4.2.1	Category 1: Barred Resources	5-30
5.4.2.2	Category 2: Supply-Side Resources Not Technically or Economically Feasible Alternatives	5-32
5.4.2.3	Category 3: DSM Options	5-34
5.4.2.4	Category 4: DSM Capacity Initiatives	5-36
5.5	Available Resources	5-37
5.5.1	Measurement Criteria: Attributes	5-38
5.5.1.1	Financial Attributes.....	5-39
5.5.1.2	Technical Attributes.....	5-40
5.5.1.3	Environmental Attributes	5-42
5.5.1.4	Economic Development Attributes	5-44
5.5.2	Description of Available Resources.....	5-44
5.5.2.1	Run-of-River Hydroelectricity	5-45
5.5.2.2	Onshore Wind	5-46
5.5.2.3	Offshore Wind	5-48
5.5.2.4	Wood-Based Biomass.....	5-48
5.5.2.5	Biomass – Municipal Solid Waste	5-50
5.5.2.6	Biomass – Biogas or Landfill Gas	5-51
5.5.2.7	Geothermal.....	5-51
5.5.2.8	Natural Gas-Fired Generation and Cogeneration	5-53
5.5.2.9	Resource Smart	5-57
5.5.2.10	Pumped Storage	5-59
5.5.2.11	Summary of Available Resources	5-60
5.5.3	Portfolio Modelling Framework.....	5-61
5.5.3.1	Introduction to Portfolio Analysis.....	5-61
5.5.3.2	Portfolio Analysis Process and Models.....	5-61
5.5.3.3	Modelling Constraints.....	5-62
5.5.3.4	Financial Parameters	5-62
5.5.3.5	Load, Market and Transmission Parameters	5-65
5.5.3.6	Characterization of Portfolio Attributes	5-65
5.5.3.7	Uncertainties and Risks Not Captured by Portfolio Modelling	5-66
5.5.4	Portfolio Evaluation Results.....	5-66
5.5.4.1	Portfolio Development.....	5-66
5.5.4.2	Technical Attributes.....	5-67
5.5.4.3	Financial Attributes.....	5-68
5.5.4.4	Environmental Attributes	5-69
5.5.4.5	Economic Development Attributes	5-71
5.5.5	Summary and Rationale for Project Selection.....	5-72
	References	5-73
	Literature Cited	5-73
	Internet Sites.....	5-73

6	Alternative Means of Carrying out the Project	6-1
6.1	Introduction	6-1
6.2	Flood Reserve.....	6-1
6.3	Historic Selection of the Location of the Site C Dam	6-2
6.4	Location and Number of Dams	6-3
6.4.1	Alternates Considered	6-4
6.4.2	Technical Assessment.....	6-4
6.4.2.1	Layouts.....	6-4
6.4.2.2	Facility Characteristics	6-5
6.4.2.3	Functionality Assessment	6-9
6.4.2.4	Comparative Assessment of Engineering Parameters	6-10
6.4.3	Economic Feasibility	6-11
6.4.4	Environmental Effects.....	6-11
6.4.4.1	Physical Environment.....	6-11
6.4.4.2	Biological Environment.....	6-13
6.4.4.3	Socio-Economic Environment.....	6-14
6.4.5	Multi-Attribute Decision-Making Process.....	6-16
6.4.5.1	Overview	6-16
6.4.5.2	Evaluation Process	6-16
6.4.5.3	Initial Screening.....	6-17
6.4.5.4	Comparison of Non-Dominated Alternates	6-20
6.4.5.5	Sensitivity Analysis.....	6-22
6.4.5.6	Preferred Alternate.....	6-23
	References	6-24
	Literature Cited	6-24
7	Project Benefits	7-1
7.1	Ratepayer Benefits	7-1
7.1.1	Competitive BC Hydro Rates.....	7-2
7.1.2	Capacity and Energy Provided by the Project.....	7-2
7.1.2.1	Capacity	7-2
7.1.2.2	Energy.....	7-3
7.1.2.3	Combined Value of Site C Energy and Capacity	7-4
7.1.3	Effect on Ratepayer Costs.....	7-4
7.2	Taxpayer Benefits	7-6
7.2.1	Local Government Revenues	7-6
7.2.1.1	Taxation Revenues	7-6
7.2.1.2	Grants-in-Lieu of Taxes.....	7-7
7.2.1.3	School Taxes	7-7
7.2.2	Provincial and Federal Government Revenues.....	7-8
7.2.2.1	Taxation Revenues	7-8
7.2.2.2	Water Rentals	7-9
7.2.2.3	Government Return on Equity and Dividend	7-9
7.2.2.4	Other Revenues	7-10
7.2.3	Summary of Taxpayer Benefits	7-10
7.3	Economic Benefits	7-10
7.3.1	Economic Development Benefits.....	7-11
7.3.1.1	Construction Phase.....	7-11
7.3.1.2	Operations Phase	7-13
7.3.2	Employment Benefits.....	7-14
7.3.2.1	Prior to and During the Construction Phase	7-15

7.3.2.2	Operating Period	7-15
7.3.2.3	Tools for Engaging Local Labour	7-16
7.3.3	Economic Benefits to Aboriginal Groups	7-17
7.3.4	Economic Benefits to Local Communities	7-18
7.3.5	Economic Benefits from Quarry Expansion.....	7-19
7.4	Environmental, Social and Sustainability Benefits	7-19
7.4.1	Optimizing the Value of Existing BC Hydro Assets on the Peace River	7-20
7.4.2	Low Greenhouse Gas Emission Energy	7-20
7.4.3	Integration of Clean or Renewable Resources.....	7-22
7.4.3.1	Wind Integration Studies	7-23
7.4.4	Improved Operational Control of Peace River Flows	7-23
7.4.5	Aquatic Productivity Benefits	7-24
7.4.6	Recreation and Tourism Benefits	7-24
7.4.7	Improvements to Public Roads.....	7-24
7.4.8	Transmission System Benefits	7-26
References	7-26
Literature Cited	7-26
Internet Sites	7-26
8	Assessment Process	8-1
8.1	Provincial Agencies, Departments, and Organizations	8-1
8.1.1	Provincial Agencies	8-1
8.1.2	Summary of Issues and Concerns Identified by Provincial Agencies	8-1
8.1.3	Issues Tracking Table – Provincial Agencies	8-1
8.1.4	Summary of Issues and Concerns Identified by Local and Regional Government Agencies	8-1
8.1.5	Issues Tracking Table – Local and Regional Government Agencies.....	8-2
8.2	Federal Authorities	8-2
8.2.1	Summary of Issues and Concerns Identified by Federal Authorities	8-2
8.2.2	Issues Tracking Table – Federal Authorities	8-3
8.3	Cooperative Review Process.....	8-3
8.3.1	Cooperative Review Process Under the B.C./Canada Agreement	8-3
8.3.2	Stages of Assessment under the B.C./Canada Agreement	8-3
8.3.2.1	Pre-Panel Stage	8-3
8.3.2.1.1	Duration of the Pre-Panel Stage	8-3
8.3.2.1.2	Establishment of the Working Group	8-3
8.3.2.1.3	Preparation and Review of the Draft EIS Guidelines	8-7
8.3.2.1.4	Finalization and Issuance of the EIS Guidelines.....	8-7
8.3.2.1.5	Review of EIS During the Pre-Panel Stage.....	8-7
8.3.2.1.6	Determination that the EIS is Satisfactory, Submission to the Joint Review Panel, Completion of the Pre-Panel Stage	8-8
8.3.2.2	Joint Panel Review Stage	8-8
8.3.2.2.1	Establishment of a Joint Review Panel	8-8
8.3.2.2.2	Commencement and Duration of the Joint Review Panel Stage	8-8
8.3.2.2.3	Conduct of the Joint Review.....	8-8
8.3.2.2.4	Pre-hearing Review of the EIS	8-9
8.3.2.2.5	Public Hearings	8-9
8.3.2.2.6	Joint Review Panel Report	8-9
8.3.2.3	Post-Panel Stage	8-10
8.3.2.3.1	Draft Referral Package for the Provincial Ministers	8-10
8.3.2.3.2	Publication of the Joint Review Panel Report	8-10
8.3.2.3.3	Preparation and Finalization of Key Provincial and Federal Documents	8-10

8.3.2.3.4	Provincial and Federal Environmental Assessment Decision-Making	8-11
8.3.2.4	Record of the Joint Review	8-11
8.3.3	Preparation of the EIS Guidelines	8-11
8.3.3.1	BC Hydro's Preparation of the Draft EIS Guidelines	8-11
8.3.3.2	Review by the EAO, the Agency and the Working Group, and the Public	8-11
8.3.3.3	Finalization and Issuance of the EIS Guidelines by the Federal Minister of the Environment and the Executive Director of the BCEAO	8-12
8.4	Permitting	8-12
9	Information Distribution and Consultation	9-1
9.1	Public Information Distribution and Consultation	9-1
9.1.1	Background	9-2
9.1.2	Pre-Panel Review Stage	9-2
9.1.2.1	Purpose	9-2
9.1.2.2	Information Distribution: Methods and Activities	9-3
9.1.2.2.1	Community Relations	9-3
9.1.2.2.2	Project Website	9-4
9.1.2.2.3	Field Study Notices and Project Information Sheets	9-4
9.1.2.2.4	Public Inquiries	9-5
9.1.2.2.5	Business Liaison Program	9-5
9.1.2.2.6	Media Relations	9-6
9.1.2.3	Public Consultation: Methods and Activities	9-6
9.1.2.3.1	Consultation Methods	9-7
9.1.2.3.2	Public Notification	9-8
9.1.2.3.3	Consultation Activities	9-10
9.1.2.3.4	Reporting	9-15
9.1.2.3.5	Public Opinion Research	9-15
9.1.2.4	EIS Guidelines and EIS Communication	9-16
9.1.3	Issues, Concerns, and Interests	9-17
9.1.3.1	Process for Resolving Outstanding Issues	9-18
9.1.4	Construction Phase Communications and Community Relations	9-18
9.1.4.1	Objectives	9-18
9.1.4.1.1	Community Relations	9-19
9.2	Aboriginal Group Information Distribution and Consultation	9-19
9.2.1	Introduction	9-19
9.2.1.1	Approach to Aboriginal Consultation on the Project	9-20
9.2.1.2	Project Consultation Objectives	9-22
9.2.2	Aboriginal Groups	9-22
9.2.2.1	Identification of Aboriginal Groups	9-22
9.2.2.2	Additional Aboriginal Groups and Other Organizations	9-23
9.2.3	Pre-panel Review Stage	9-25
9.2.3.1	Information Distribution Methods	9-25
9.2.3.2	Methods of Documenting Project Consultation	9-26
9.2.3.3	Description of Consultation Activities	9-26
9.2.3.3.1	Stage 2: Consultation (Fall 2007–Spring 2010)	9-27
9.2.3.3.2	Stage 3: Consultation (Spring 2010 to present)	9-29
9.2.3.4	Key Issues and Concerns Raised by Aboriginal Groups	9-42
9.2.4	Process for Resolving Outstanding Issues Raised by Aboriginal Groups	9-43
9.2.5	Construction Communication	9-44
9.2.5.1	Objectives	9-44
9.2.5.2	Activities	9-44
9.2.5.3	Tracking and Reporting Regulatory Issues and Concerns	9-45
9.3	Agency Information Distribution and Consultation	9-45

9.3.1	Consultation Prior to Entering Environmental Assessment Process.....	9-45
9.3.2	Consultation During the Environmental Assessment Process	9-55
9.3.3	Construction Communication	9-65
	References	9-66
	Internet Sites.....	9-66

List of Appendices

Appendix A	Vegetation Clearing and Debris Management Plan
Appendix B	Reservoir Filling Plan
Appendix C	Draft Construction Materials Development Plans: Part 1) Impervious Till Core Material Source Development Plan - 85th Avenue Industrial Lands; Part 2) Wuthrich Quarry Development Plan; Part 3) Portage Mountain Quarry Development Plan; Part 4) West Pine Quarry Development Plan; Part 5) Del Rio Pit Development Plan
Appendix D	Need for and Alternatives to the Project Supporting Documentation
Appendix E	Review of Alternate Sites on the Peace River
Appendix F	Project Benefits Supporting Documentation
Appendix G	Public Information Distribution and Consultation Supporting Documentation (8 parts)
Appendix H	Aboriginal Information Distribution and Consultation Supporting Documentation
Appendix I	Government Agency Information Distribution and Consultation Supporting Documentation (2 parts)

AUTHORSHIP

Environmental Impact Statement

Section	Contributors and Credentials	Affiliation
Section 4 Project Description	John Nunn, M.Sc., P.Eng.	Klohn Crippen Berger Ltd.
	Sarah Simon, E.I.T., Environmental Engineer	Klohn Crippen Berger Ltd.
	Melissa Holland, Director, Transmissions	Site C, BC Hydro
	Don Wharf, Highways and Roads	Site C, BC Hydro
Section 5 Need for, Purpose of, and Alternatives to the Project	Lindsay Fane, Resource Planning Sr. Engineer	BC Hydro
	Mike Savidant, Commercial Manager	Site C, BC Hydro
	Craig Godsoe, Sr. Solicitor & Counsel	BC Hydro
Section 6 Alternative Means of Carrying out the Project	John Nunn, M.Sc., P.Eng.	Klohn Crippen Berger Ltd.
Section 7 Project Benefits	Mike Savidant, Commercial Manager	Site C, BC Hydro

Appendices

Volume 1 Appendices	Contributors and Credentials	Affiliation
Appendix A Vegetation, Clearing, and Debris Management Plan	Rob Schuetz, Registered Professional Forester	Industrial Forestry Services Ltd.
	Tim Giesbrecht, Forest Technician	Industrial Forestry Services Ltd.
	Hesheng Zhang, GIS Analyst	Industrial Forestry Services Ltd.
Appendix B Reservoir Filling Plan	Jeremy Bruce, P.Eng., Civil Engineer	Klohn Crippen Berger Ltd.
Appendix C Draft Construction Materials Development Plans: Part 1 – Impervious Till Core Material Source Development Plan- 85 th Avenue Industrial Lands Part 2 – Wuthrich Quarry Development Plan Part 3 – Portage Mountain Quarry Development Plan Part 5 – Del Rio Pit Development Plan	Barry Bergstrom, Sr. Construction Manager, Road Infrastructure	Tetra Tech
	John Bodnarchuk, Project Manager, Road Infrastructure	Tetra Tech
Appendix C Draft Construction Materials Development Plans: Part 4 – West Pine Quarry Development Plan	Yubin Wang, P.Eng.	SNC-Lavalin Inc.
	Sarah Simon, E.I.T., Environmental Engineer	Klohn Crippen Berger Ltd.
Appendix E Review of Alternate Sites on the Peace River	John Nunn, M.Sc., P.Eng.	Klohn Crippen Berger Ltd.
	Alfred Hanna, Ph.D., P.Eng., Sr. Vice President, Hydro and Power Systems Division	SNC-Lavalin Inc.
	Scott Hanna, M.R.M., R.P.Bio., Director North America/Hatch Associates, Environmental Services Group	Hatch Ltd.
Appendix F Project Benefits Supporting Documentation	Mike Savidant, Commercial Manager	Site C, BC Hydro
